OFFICIAL PAPER OF THE CITY.

The News.

It is "believed" in New York that Lee has already escaped from Richmond and that he is now hurrying on to help Johnston crush Sherman. Lee will hardly cheat Grant with Quaker guns as McClellan was cheated at Manasas.

The Richmond *Whig* learns that Fitz Hugh Lee's cavalry checked Sheridan at the White House, fought and severely punished him. This will be news to little Phil.

Considerable activity prevails in the army of the Potomac, indicating that the final struggle is at hand.

The rebel papers are as full of bluff and bluster as usual. They dispose of Sherman and his army once a day regularly in their editorials, evidently believing in the motto that "the pen is mightier than the sword."

The organization of colored troops in Richmond is going on as rapidly as possible. The *Sentinel* says the darkies present a ludicrous appearance, but it is generally believed sambo could be taught to handle a gun as well as a white man. He may be able to handle a gun, but which way will he point it? That's the question.

We have no gold quotations up to going to press.

Col. Lyon's Acceptance.

Col. Lyon's letter, accepting the nomination tendered him by the Elkhorn Judicial Convention, is printed herewith, and which the reader will undoubtedly peruse for himself. The two candidates are now fairly in the field, and as it is a mere matter of personal fitness for the position, the people will soon have an opportunity to decide the question for themselves at the ballot box, in the manner that they shall deem best. We have the fullest faith that they will decide it right.

On Monday we shall publish the Address to the electors of the Circuit, prepared by the committee appointed for the purpose at the Elkhorn Convention, and after allowing the friends of the other side the same amount of space in reply (if they claim it) the controversy will end, so far as these columns are concerned.

THE New York *Herald's* correspondent, in giving the details of the battle near Kinston, says Col. Mailoy, of the 17th Wisconsin, commanding a brigade in the second division, writes from the front as follows:

We whipped the rebs most beautifully on the 10th, captured four hundred prisoners and killed and wounded one thousand two hundred. The loss in my brigade was light—two killed and nineteen wounded. Col. Scott captured five rebels.

PROF. AGASSIZ is to start within a week, for the tropics, with a party of eight gentlemen, for the purpose of testing his glacial theory, which, if correct, will enable the observer to mark, as upon a thermometer, the changes which the earth's surface has undergone by the effects of heat and cold. The Emperor of Brazil takes a lively interest in this enterprise.

THE Racine *Advocate*, Kenosha *Telegraph*, Beloit *Journal*, Burlington *Standard*, Monroe *Sentinel* and Whitewater *Register* all repudiate the action of the Elkhorn Convention. On the other hand, it is stated that the Brodhead *Independent* has changed front, and now supports Col. Lyon. We have not seen the last issue of that paper,

OUR PRISONERS.—The New York *Tribune* of the 21st, prints about 1,300 names, a partial list of Union prisoners who died at Salisbury, N. C., between December 18th and early in February. The whole number of inmates of the prison during that period, averaged less than 5,000.

THE Supreme Court of the United States has decided the Albany Bridge case, reaffirming the decree of the Superior Court, which was to dismiss the petition for a perpetual injunction. The work can now go on unobstructedly.

THE *Herald's* Newbern correspondence of the 13th says General Cox's total loss in three days will not exceed 1,000. The rebels lost double that in one day.

VOLUME 9. JANESVILLE, WIS., SATURDAY, MARCH 25, 1865. NUMBER 30.

Col. Lyon's Acceptance.

HEADQUARTERS 13TH R. G'T. WIS. V. V. I.,
HUNTSVILLE, Ala., March 20th 1865.

HIRAM BOWEN AND JOHN R. BENNETT, Esqrs., Janesville, Wis.

GENTLEMEN:—Late on Saturday evening, the 18th inst., I received your telegram of that date, informing me that I had been nominated by a convention of delegates, as a candidate for Judge of the First Judicial Circuit, and expressing a desire that I accept the nomination. This morning I telegraphed you my acceptance of it.

Your dispatch took me entirely by surprise. I had received no intimation from any source that my nomination was tho't of in the Circuit, and I had not the most remote idea of being a candidate for the position. Indeed, amid the multiplicity of labors and responsibilities which engrossed my time and attention, I had scarcely given the subject a thought. This was not because I underrated the dignity and importance of the office, but because I felt assured that the people of the Circuit would see that a proper person be selected to fill it.

There were some difficulties in the way of my acceptance, the principal of which was, that I felt a strong obligation resting upon me to remain with my regiment, so long as I could be of any service to it; and this, more especially now, as we are under marching orders, and will leave, during the week, for the front, to participate actively with the Army of the Cumberland in its coming campaigns.

But in view of the probable early close of the war, and in consideration that I can remain with my regiment, (which I intend to do,) through the spring and summer campaigns, those of my officers and men with whom I have conversed on the subject, and I believe my whole command, will cheerfully acquiesce, should their friends and neighbors at home decide to transfer me to another field of duty. Without their consent, no consideration, not even the honor of being called to occupy the Bench, which has been filled by the lamented Whiton and Keep and by other distinguished jurists of our State, could induce me to leave the brave men with whom I have been so long and so pleasantly associated.

Feeling a sincere distrust of my ability, I can only promise my most earnest endeavors, (if elected,) faithfully and impartially to discharge the solemn and responsible duties of the position.

Thanking you gentleman, and through you, the convention for the high honor conferred upon me by this nomination, I am, very respect'y, your obd't serv't,

WM. P. LYON.

Elkhorn Convetion.

Editors Gazette:—A citizen of the Sixth Assembly District thinks it a remarkable affair that a prominent Democrat of this city should represent that district in the Elkhorn Convention; and he asks for an explanation, which, with your permission, we will give him. It was not a *party* convention, but it was called entirely independent of party, to put in nomination a candidate by the *people*, to be supported and elected by the people, and the Democrat from this city is one of the people, possessing property, good character and influence, and, it not being convenient for one of the gentlemen, who was selected as the 5th District, to attend the convention, the Democrat, in this city was substituted to fill his place. Now, judge of his *loyalty* by his action in the convention. He cheerfully and warmly supported Col. Lyon, than whom there is not a more *honest* or patriotic citizen in Wisconsin. A gentleman against whose *character* and ability, (as the Editor of the GAZETTE remarks) nothing derogatory can be truthfully said. What a sad commentary it would be upon the editors and lawyers of the First Judicial District, if nine-tenths, or even three-fourths of them, should go against such a nominee under all the circumstances surrounding the approaching Judicial election. K.——

[The above was written by a very prominent actor at the Elkhorn Convention, and his evidence is of value on one point, namely: that it was in no sense a *party* convention, and hence party fealty does not require any man to endorse it. His testimony in this respect, is important.—ED. GAZETTE.]

JEFF. DAVIS' STATEMENT ABOUT THE PEACE CONFERENCE A FALSEHOOD.—We have the best authority for asserting that the declaration made by Jeff. Davis in his message, which appeared in this city exclusively in the *National Republican* on Saturday last, that "an interview with General Longstreet *was asked for by General Ord*" to the end that an interview might be had between Generals Grant and Lee, is *in part and in whole a deliberate falsehood.*

The truth is, that *an interview with General Ord was solicited by General Longstreet*, AT THE REQUEST OF GENERAL LEE. General Grant not being authorized to act as a peace commissioner, *except in a legitimate military way*, declined the interview.

The fact that General Lee has sought such a meeting with General Grant is an evidence of his desire to obtain terms.—*Washington Republican.*

THE rebel Gen. Whiting, before his death, sent to Gen. Butler, in writing, a statement of the number of troops in Fort Fisher at the time of the first attack, of the Confederate force in supporting distance, and of Bragg's troops in Wilmington, and describes minutely the ineffectiveness of Porter's fire on the fort—so ineffective that the cannoniers were not driven from their guns—and made a case generally that overwhelmingly justified Gen. Butler's withdrawal from the attack on Fort Fisher. Whiting said, among other things, that it was a matter of reproach against Bragg, in his army and at Richmond, that Butler's small force was not captured bodily; that Bragg had the troops and the position to have made the capture; and he in terms charged it upon the supineness of the Confederate commander that every soldier Butler had was not taken. The frank statement of Gen. Whiting is in testimony before the Committee on the Conduct of the War.

MAJOR GENERAL BANKS.—This distinguished officer left this city for New York yesterday, after paying his respects to the President. He leaves that city for New Orleans in a few days, to resume command of the Army of the Gulf, from which he has been temporarily absent to attend to official matters relating thereto.

Louisiana owes much to General Banks for his untiring labors in this city for several months past, to obtain for her among the free States of the Union that place to which she is so justly entitled.—*Washington Republican.*

COMING IN constant contact with old complaints, Dr. Price has become thoroughly acquainted with their peculiarities and treatment needed to remove them. But few physicians have had the opportunities for investigating this class of diseases that Dr. Price has had. The practical knowledge acquired by these extended observations with his thorough education, common sense views and prompt attention has placed him ahead of any in his line of the profession. The regularity of his visits the last six years is to his credit, and proves that his treatment in the majority of cases has been successful; were it otherwise he would have discontinued his visits here before this. Diseases of the Head, Heart, Nerves, Liver, Kidneys, Lungs, Throat, Stomach and Blood in a chronic form he treats with a certainty of recovery if presented in a curable stage. Dr. Price is not one of those cure-alls that flood the country without honesty or ability, but is a candid, educated and skillful physician, and as such we can recommend him to all in need of his services.

Dr. Price can consulted on his next visit at the Hyatt House during Saturday and Sunday the 1st and 2d of April.

PROFESSOR BLAISDELL, of Beloit College, will preach in the 1st Congregational church to-morrow (Sunday) morning and evening.

STAMPING AND EMBROIDERY.—A lady whose husband died in the army has a word to say in another column about stamping and embroidery. We have no doubt the ladies will give her a call.

THE WEATHER.—This has been so fair a day that it is best to say a word in its praise. In a few days more, farmers will begin to sow on fall plowed land—that is to say, if it don't snow to-morrow and freeze the day after.

ECHLIN AND FOOTE.—These gentlemen announce the reception of choice spring goods in their line, which they are offering on most favorable terms. It will be well worth the while of those in want to examine their stock, for it is large and varied.

PERSONAL.—Captain Cobb, of Co. A, 13th regiment, has arrived home. He says while the boys of the regiment would dislike to part with their Colonel, they would like to see him honored by an election to the position of Circuit Judge very much. The men are all well and are going to Bull's Gap.

KENOSHA WATER CURE.—This institution, which has obtained an enviable reputation in water cure treatment, it will be seen by a notice in another column, is to receive an accession of able and experienced practitioners to take charge of it the coming season. It will no doubt continue to be a favorite place among those desiring the advantages of a water-cure establishment.

NOT QUITE.—The young lady who sends us, for publication as her own, one of Saxe's standard poems, would have done better had she brought us the printed copy, in which case certain errors would have been avoided. Literary thieves sometimes expose themselves by stealing articles that are too good.

It is a pity that our would-be poetess signed just enough of her name to expose her.

FROM THE REBEL PRISONS.—Lieut. C. L Noggle, of the 2d U. S. Infantry, returned to his home in this city yesterday afternoon. He was taken prisoner on the 2d of June last in front of Richmond, and has visited a large number of the rebel prisons of the South. After being kept 6 days in the Libby Prison, at Richmond, he, with a large number of others, was removed to Macon, Ga.; from thence to Charleston, where he was under the fire of our naval guns for some time. From thence he was taken to Columbia, from Columbia to Charlottsville, thence to Raleigh and Goldsboro. From Goldsboro he was exchanged, and came home *via* Cape Fear River. He heard the music of Sherman's guns on the day of his departure. He is in good health and spirits.

GREAT DECLINE IN GOODS.—As will be seen by the advertisement of Messrs. Palmer's in another column, sugars, teas, and all the leading commodities of life, are rapidly finding their level with the decline of gold. This firm with their usual promptness and extended business facilities are offering great inducements to the public. In view of their increased trade they have opened a branch store in Lappins Block, which will be under the immediate supervision of Mr. E. C. Palmer, the Junior member of the establishment. Parties desiring goods in their line, would do well to look at their stock when purchasing.

Messrs. Dana & Fisher, with an ample stock of goods, have put their prices down to conform to the downward tendency of gold.

On the east side of the river are Messrs. Vankirk & Myers, Brand & Fredendall, Ed. Connell, Conrad & Vankirk, and S. H. Culver, all of whom have signified their purpose through our columns, to put down prices to a figure corresponding to the drooping tendency of the market.

TO THE FARMERS.—The subscribers having purchased one of the Best Corn Crackers in the State, are now prepared to do custom work in a superior manner. We grind cob and all, wheat, feed and barley. Satisfy yourselves before going elsewhere.

OFFICIAL BULLETIN.

WAR DEPARTMENT,
WASHINGTON, Friday, March 24—9 p. m.

To Maj. Gen. Dix:

The following extracts from Richmond papers were received this evening at 8:30 p. m., from Gen. Grant:

CITY POINT, March 23.

To Hon. E. M. Stanton, Secretary of War:

The Richmond papers are received. The following is from a dispatch from North Carolina: It is understood in official circles that no fighting has occured in North Carolina since Sunday 19 h, and for all we can learn it appears that Sherman has attempted no advance since his check on that date. Generals Hardee's victory on the 16th was a very important one, and as regards the enemy, a most bloody affair. General Johnston telegraphed that in that battle the Confederate loss was 450, while that of the enemy was 3,300. The fight took place near Averysboro, on the Cape Fear river half way between Raleigh and Fayetteville General Johnston's defeat of the enemy last Sunday, the 19th inst., occurred at Bentonville. We are also informed that Sherman is pushing toward Raleigh in two columns—one moving due north from Fayetteville, the other northwest from Newbern. General Hardee fought the former, General Johnston the latter.

U. S. GRANT, Lt. Gen.

FROM WASHINGTON.

New York, March 25.—Washington specials say it is believed there that Richmond has been evacuated and that only a rear guard has been left to keep up picket lines among Grant's front. It is also rumored that Lee is at the head of the liberated Richmond army, marching in all haste to unite with Johnston and so fall upon Sherman.

New York March 24.—The Navy Department has information that all the naval officers delivered to Rear Admiral Thatcher at Red river, February 26th have been exchanged. Rear Admiral Lee reports that the 440 officers and men delivered at the mouth of Red river February 25th, and sent to Cairo, have been exchanged. There is reason to believe however, they were only paroled.

New York, Friday, March 24.—The *Commercial's* special says: "The Washington *Chronicle* has another peace article to-day, which is regarded as significant in view of Forney's intimate relations with the President, and the latter's departure for Grant's headquarters. It advocates a liberal policy toward the rebel leaders, to prevent further bloodshed. There is a growing conviction that the leaders on both sides have now under discussion, some project that points toward a suspension of hostilities."

FROM THE SOUTH.

New York, March 25.—The Richmond *Sentinel* of the 22d says that eastern Louisiana is infested with Jayhawkers, robbers and murderers. The people are frequently found murdered in their homes and even women are killed. In short anarchy reigns supreme.

New York, March 24.—The Richmond *Sentinel* of the 21st learns that Com. Hollins was not killed by Sheridan's men, as reported.

The Lynchburg *Virginian* says the Orange & Alexandria Railroad has not been damaged as much as was anticipated. Only six bridges were burned, and a mile and a half of track torn up, and depots at North Garden, Codesville, Rockfish Arington and New Glasgow burned.

New York, March 25.—Reports in Richmond of the late fighting in North Carolina, as given by the *Dispatch* of that city, in Gen. Grant's official, do not conform with those in Raleigh and published in the papers of that city. The Raleigh *Confederate* of the 21st, says it hopes within a few days to give cheering intelligence. So far everything is encouraging. In the affair which occurred a few days since between Hardee's and Sherman's forces, we repulsed successfully five assaults upon our lines and held our position until the object was effected. In drawing off we lost two guns because the horses had been killed. Our loss in the affair was about 400 in killed and wounded. The enemy's loss was about 400. Of the battle Sunday a correspondent states that a very decided advantage was gained by our troops. The enemy were driven several miles with heavy loss. We captured some artillery.

[The first battle occurred on the 16th, near the junction of the Black with the Southriver, on the Fayetteville and Goldsboro road—some fifteen miles below Bentonville, in the vicinity of which place the battle of Sunday occurred. So it would appear the rebels fell back fifteen miles before gaining a victory on the 16th, in which the Union loss was a bloody one. It is evident that no decisive battle had been fought.] The Richmond *Sentinel* of 21st says Goldsboro has been evacuated, or last accounts the enemy had not entered the place.]

The same paper says there is a band of rebel deserters prowling in Bedford Co. Va., plundering the inhabitants. The organization of colored troops in Richmond is going on as rapidly as possible. The *Sentinel* says the darkies present a ludicrous appearance but it is generally believed sambo could be taught to handle a gun as well as a white man.

The Petersburg *Express* says Grant's trains were moving all Saturday night with troops toward the left of his line. It may have been only another see saw movement to deceive us. The weather however, is very fine and Grant may advance, thought it is thought he will not move until Sherman is hearer.

The *Whig* of the 22d learns that Fitz Hugh Lee's cavalry checked Sheridan at the White House, fought and severely punished him.

FROM GRANT'S ARMY.

Washington, March 24.—Advices received from the Army of the Potomac state that a great deal of firing has taken place lately. The rebels are opening fire on some of our working parties as well as at the Avery House signal station and upon passing trains on the railroad. But so far they have done no injury. Picket firing on the same portion of the line, is kept up constantly at night, mainly to prevent desertion from the rebel army.

The enemy still refuse to exchange Richmond papers.

Wednesday, rumore prevailed here that a fight had taken place between Gen. Ord's army and the enemy on Tuesday, but there is no foundation for them. The troops of Gen. Ord were being drilled in breaking camp and packing up, which probably gave rise to the story.

Nineteen deserters came in last night in front of a division of the 9th corps, bringing their arms and equipments with them.

FROM NORTH CAROLINA.

New York, March 25.—The *Times* Washington special says Lieut. Morgan of the 51st Wisconsin, an escaped Union prisoner, left Fayetteville on the 16th, the day of the reported first battle, at which time the rear of Sherman's army was crossing Cape Fear river and moving north. A skirmish occurred on the 14th, between the 2d division, 14th corps and a small body of rebels. This was all the fighting reported that day.

FROM MARYLAND.

Baltimore, March 24.—The Maryland House of Delegates yesterday passed a bill appropriating $50.000 to be advanced to the Navy Department to enable it to prepare for the return of the Naval School to the Academy building at Annapolis. The appropriation made by Congress for the purpose, was lost by the failure of the miscellaneous appropriation bill.

During yesterday much damage was done in the city. The boiler house of the Vulcan works was blown down. One man killed.

FROM NEW YORK.

New York, March 24.—The rates of the gold market this morning were opening at $1.50¾ rose to $1 50½ and then steadily declined to $1.50¾ but the market was anxious to arrest the downward course, the disposition appears to be to allow it to fall as low as possible so as to have a better chance to send it up when an opportunity offers. In stocks this morning there was less pressure to sell and apparently more disposition to buy, and on some of them show an improvement of ½ per cent.

FROM CANADA.

Quebec, March 24.—Telegrams from Halifax say the Government in abandoning the hope of an early union of the provinces will submit a scheme for the confederation of the maratime provinces only.

The thinking and unbiased portion of the community will appreciate the great advantage of a permanent and reliable Institute for the cure of chronic diseases that usually baffle the skill of the general practitioner.

Catarrh, that great promoting cause of Consumption in the Northwest, always gives way upon a application the new remedies. Dr. Hale has never encountered case of this disease he could not cure. To present case is very favorable for applying proper remedies; delay are dangerous. Your case may be cured this hour not next, to-day, not to-morrow.

All who are suffering from any of the diseases Hale makes a specialty in treating, should at once call and investigate the new system for themselves. No person of good sense and sound judgment will without full and careful investigation, denounce "humbug" that which claims to possess merit.

Dr. Hale takes pleasure in referring to the following responsible parties, citizens of Janesville, who can speak knowingly as to the efficacy of Dr. Hale's treatment, not to mention hundreds of others in the Northwest that have been cured:

M. Schuyler, proprietor of the Schuyler House; Hewitt Davis, N. G. Remington, D. R. Stout, F. J. Tuppa Silas Doty, Job printer, J. D. Haynes, W. H. Sloan, R. Beckley, N. Rowe, John Kerr, J. F. Drake, Wm Dyxter, Mrs. W. W. Wheeler, Mrs. C. J. Cheney, Mrs Belle Shattuck, Miss N. Wiley.

The list could be extended to an indefinite length but the above will suffice.

The Janesville Gazette.

SATURDAY, MARCH 25, 1865.

What Must we do to be Saved.

The great law of compensation is likely to receive a fresh illustration in the effect which a prominent case of drunkenness on the 4th of March last, will have upon the American people. We, as a nation, have been so absorbed with the great sin of chattel slavery and its concomitant evils, and have been so intent upon saving the life of the nation from the attacks of this dangerous enemy, that we had quite forgotten another insidious foe of the race, which has already destroyed more lives than the great rebellion, and produced more sorrow and national loss. While there has been no open declaration of war—no marshalling of vast armies—no bloody battles—no conscription laws nor arbitrary arrests, yet this great enemy has its pickets and its "bummers" and its raiders in every city and hamlet in the land—murdering its tens of thousands annually and destroying the peace and happiness of whole communities. Its last victim is the Vice President of the United States—taken prisoner and carried off while in the very act of being inaugurated! When did the armed minions of Jeff Davis ever achieve so great a victory as that? What bold exploit of Stonewall Jackson is to be compared with the capture of our newly chosen Vice President in the Senate chamber of the nation, surrounded by the highest dignitaries of this and other lands, and while in the very act of kissing the Bible to give solemnity to his official oath! It is said the President wept bitter tears of sorrow over the death of Ellsworth, who fell by the hand of a rebel, and it is left for the imagination of the reader to conceive of the grief that must have filled his soul when he saw his successor in office bound hand and foot and carried from his sight, by our nation's other wily and persistent foe!

As might be expected, this bold achievment of the enemy has startled the nation from its lethargy, and the press all over the land, thunders its warnings in trumpet tones. So great an example was doubtless needed, coming like the earthquake shock as it did, to warn us of the dangers ahead. Many are the admonitions that have been sent us from time to time in that very chamber. Both sides of it during the last year have been disgraced by notorious drunkards. Illinois is shamed by a Democrat and Michigan by a Republican. Delaware and Kentucky are matched by Minnesota and California. The contingency might arise in which a Senator, elected President *pro tem* of the Senate, should become President of the United States, and the condition of the country in these perilous time with a drunkard at the helm!—the very thought is painful in the highest degree, and the mind turns from it with disgust and loathing. But we have been shown what *might be*, and the question now is: "will *the people*, who are the conservators and source of all political power in the land, be admonished by this terrible lesson? Will they honestly endeavor to elevate the standard of political morality, by selecting public servants that shall not disgrace themselves and their constituency by their coarse and brutal habits? It is not necessary to carry our politics into religion, but the sadest need of American politics this day, is an infusion of religion into them. The dictum of the grog shop is mightier than the voice of the press and the pulpit combined, when the ravenous pack of office hunters get on the scent of a new place. "The ass knoweth his master's crib," and the ox doth not low that hath fodder, but what will not men do for an office be it never so small. We have known professing christians and good temperance men themselves, furnish money for "free whiskey" and spend the Sabbath before election day in distributing tickets to encompass their own success. The vice of intemperance will continue to fill the land with shame and crime, so long as the people support common drunkards for the highest places within their gift; and to probe this matter still deeper, the people themselves must begin the reform at home. The fountain cannot rise higher than its source, nor, being bitter, can it send forth sweet waters. A genuine and lasting temperance reformation will take place *never*, until those who give tone to public sentiment will reform themselves, and, instead of treating *effects* altogether we must turn our attention more to *causes*.

Heavy Business Houses of Milwaukee.

We give below, from the income returns for 1863, over and above all legal exemptions, the returns of some of the leading business houses, by putting the separate co-partners together, and in case of non-resident partners adding their interest in the Milwaukee firm; thus showing at a glance the relative incomes, or reported incomes, of some of our principle houses. Attention will necessarily be drawn to the great discrepancies that exist, confounded all previous public opinion. But these discrepanees are doubtless explainable by the parties themselves; but they are no greater than exist in the other returns attached to the names that appear on the full roll:

—*Daily Wisconsin*

THE April number of the *Atlantic Monthly* will contain a new "Biglow Paper" from the pen of Lowell.

A GRAND OLD POEM.

Who shall judge of a man from manners?
Who shall know him from his dress?
Paupers may be fit for princes,
Princes fit for something less.
Crumpled shirt and crumpled jacket
May beclothe the golden ore.
Of the deepest thoughts and feelings—
Satin vests could do no more.

There are springs of chrystal nectar
Ever welling out of stone;
There are purple buds and golden,
Hidden, crushed, and overgrown;
God, who counts by souls, not dresses,
Loves and prospers you and me,
While he values thrones the highest
But as pebbles in the sea.

Man, upraised above his fellows,
Oft forgets his fellows then,
Master, rulers, lords, remember
That your meanest kinds are men.
Men by labor, men by feeling,
Men by thought and men by frame,
Claiming equal rights to sunshine,
In a manly ennobling name.

There are foam embroidered oceans,
There are little weed clad rills,
There are feeble, inch high saplings,
There are cedars on the hills;
God, who counts by souls, not stations,
Loves and prospers you and me:
For to him all vain distinctions
Are as pebbles in the sea.

Toiling hands alone are builders
Of a nation's wealth or fame;
Titled laziness is pensioned,
Fed and fattened on the same;
By the sweat of others' foreheads,
Living only to rejoice,
While the poor man's outraged freedom
Vainly lifted up its voice.

Truth and justice are eternal,
Born with loveliness and light;
Secret wrongs will never prosper,
While there is a sunny right.
God, whose world-heard voice is singing
Boundless love to you and me,
Sinks oppression with its titles,
As the pebbles in the sea.

What is a "Bummer."

A correspondent of the New York *Tribune* who accompanied Sherman, gives the following life portrait of the now immortal "bummer:"

A bummer is an individual who, by favor of a wagon master, becomes possessed of a broken down mule, or else starts, if need be, on foot, in either case, of course, armed with his musket. He makes his way into the enemy's country, finds horses in numbers by help of the negroes, hitches a team to a wagon, loads on it all the stores and supplies he can find in the nearest house, mounts his negroes on the other horses, and returns with his spoils. He never objects to gold watches or silver plate "if he can find them in a swamp a mile from any house." These men were stragglers not in the rear but in the front of the army, and they went before it like a cloud, being often twenty or thirty miles in advance of the head of the column. They would fight anything. Three "bummers" together would at any time attack a company of Rebel cavalay, and in favorable circumstances would disperse them and capture their booty. With the exception of Columbia alone, every town in South Carolina through which the army passed was first entered by the bummers. At Chesterfield they were two days and a half ahead of the army, the whole corps having congregated at this point. They rigged up two logs for cannon, sent a flag ahead of the town, which was occupied by a detachment of Butler's Division of cavalry, demanded its surrender, frightened off the Rebel cavalry, and entered the town in grand procession of broken down mules, ragged "bummers," and the "Quaker guns." The coat tails of the Rebels disappeared at one end of the town as the "Do Boys" entered at the other.

When the army was marching toward Medway, as above described, a smoke-house ranger was seen rushing toward the front, with an old bit of carpet on his mule for blanket, and a couple of ropes with nooses for stirrups, in which his feet rested. This hero came rushing up to General Howard, and shouted out: "General, the bummers have taken the railroad, and *if* you'll only hurry up, I think they'll hold it." The General did hurry up, and found the railroad, as the smoke ranger had said, in possession of about seven bummers, who were busily engaged skirmishing at long range with a detachment of Wheeler's cavalry.

The Pantelegraph.

We have several times had occasion to mention the Abbe Caselli's wonderful invention, by which he not only transmits from one place to another the words of a dispatch, but the very handwriting of the person who sends it. As this new telegraphic system is now beginning to receive a practical application on a large scale, a description of the apparatus may not be uninteresting to our readers:

Imagine a cast-iron frame shaped like an A, and a pendulum suspended from its apex. At each foot of the frame there is an electro magnet, through the action of which the pendulum, which is two meters in length, oscillates between them, according as an electric current passes from one to the other. About the middle of the shaft of the pendulum there is a short arm or cam, which at each oscillation causes a lever fixed to the cross-bar of the A to describe a circular arc. At the end of each oscillation this lever twice meets a click and spring work fixed to the same cross-bar. At the first stroke the metallic vibration is interrupted, and at the second a fork is set in motion, the prongs of which alternately act on the teeth of a ratch, which is thus forced to turn, and in so doing communicates motion to an endless screw, cut into its own shaft. This endless screw causes two small chariots to move simultaneously, and each chariot carries a fine steel point or stylus. Now as, in virtue of the endless screw, these two points move uniformly in the same direction—the progress of the one not differing from that of the other, even by a hair's breadth—it follows, that whatever stroke will be described by the one will be imitated with mathematical exactness by the other. Now suppose a metallic plate to be placed under each point, these plates being curved like the circular arcs described by the points, then, after a certain number of oscillations of the pendulum, these points in moving along will have described upon the plates as many parallel lines infinitely close to each other as there have been oscillations. Hence, the whole surface of the plates has been gone over. The plates are in direct communication with the ground by means of chains. One of the plates we will call the transmitter, and the other the recipient. The sender of a dispatch writes it with common ink on a sheet of tinned paper, and places it on the transmitter. On the recipient we place a sheet of chemical paper, impregnated with a solution of cyanide of potassium. Let us now set the apparatus in motion. The current being established, so long as the point of the transmitter only touches upon the tin, the electric fluid will escape into the earth: but no sooner does it meet the ink of the writing, which is a non-conductor, than the fluid, not finding an escape there, will seek it along the wire which connects the two points together. Thus the point which works on the chemical paper of the recipient will produce a blue stroke on the latter for every black stroke on the dispatch; for steel in contract with cyanide of potassium, and under the influence of a positive current, produces blue. Hence, supposing the dispatch to have been written in black and transmitted to Lyons, the correspondent at the latter place will receive in blue the exact fac simile of the sender's hand-writing. An order to pay a certain sum may thus be transmisted with perfect safety.

The Perils of the Rail.

There have been more than fifty serious railway accidents in the country since the year opened. In the last week of February there were ten, and since the first of January more than sixty people have been killed, and nearly five hundred wounded. The Ohio Senate has appointed a committee to report upon some plan by which human life can be better protected upon railroads. Scarcely a day passes that some disaster is not recorded, and if the people of the country, in their Legislature, do not help themselves they are likely to go unaided.

That Government should not meddle with private affairs is very true. But wholesale slaughter upon railroads which derive all their privileges from the people is not a private affair. There is a contract between the companies and the people. Personal safety is one of the inevitable although unexpressed conditions of the contract. If broken by the privileged party, the party that grants the privilege may properly take the steps necessary to secure the fulfillment of the conditions. Legislative control of a railroad company may be undesirable, but universal accident and slaughter upon railroads are less desirable; and whenever a company established for the public convenience becomes a public danger, the public will very properly insist upon taking care of itself, by imposing new conditions upon the company.

So unfortunate a season for railroad travel was never known in this country. The reasons are many. All the roads are well worn. The price of iron has been so high, that, at a time when the roads were most worked, repairs have been delayed. The long-continued frosts have weakened the rails and the iron work of the locomotives. The throng of passengers and the press of freight have been unprecedented, and the Government has constantly wanted locomotives and engineers. Consequently, rails have been snapped in every direction; locomotives have been disabled; trains have been whirled from the track; the cars have been crowded and uncomfortable; time tables have been utterly useless; connections have been seldom made, and trains have been uniformly delayed.

If any man thinks that the Legislature has no right to meddle with private affairs, we should like to seat him in a car from New York to New Haven, and when the train is thundering along at thirty miles an hour, jerking and jumping from the track, and every passenger waiting for the crash, ask his opinion of the right of any company to play with human life as it is played with upon that road. Or if he is confident that every company should be left to mind its own affairs, we should like him to stand up in a car upon the New York Central from Albany to Utica, with no chance for a seat, and, reminding him that there was no chance of helping himself by the competition of another road, ask him whether he paid his fare for the privilege of discomfort, and whether the charter was granted for the public accommodation or not.

Of course the companies are not responsible for not overcoming the elements; but they are responsible for not accommodating themselves to circumstances. For instance, a traveler lately left Albany for the West upon the Central Road. The train was very heavy; there were twelve cars. It was crowded, and in every car some passengers were standing all the way. The weather was cold, and when the traveler who sat near the stove asked the boy who tended the fires to put in some dry wood he replied, good-humoredly: "Dry wood! Golly, there are twenty-four stoves on this train, and only two on 'em has any fire, and yourn's one. Ef yer wait for dry wood yer'll freeze pretty sudden. This wood was all cut down this mornin'." From eight o'clock in the morning until nine at night there was no stoppage for eating. The train was laboring along behind time; and whether, as one critic said, the President of the road was interested in coal, and so had the locomotives changed from wood-burners to coal-burners, or whether an untimely parsimony had compelled the company to use green wood to make steam, the result was the same—the most baffling and disastrous delay.

"I advise everybody to keep cool and take it philosophical," said a traveler, who was camly smoking a cigar at ten o'clock in the evening. "I have been on the go since the 28th of December, and I hain't made but two connections in all that time. Might as well keep cool about it. Here's this Central Road. Out of sixty locomotives, forty of 'em is in the shop. Two smashed up this morning at Utiky. Better take it Philosophical." All this time no water was to be found for the children. Every one of these inconveniences could have been remedied by an efficient superintendence; and if the increased weight of the trains or diminished power of the locomotives prevented making time the time could be changed.

It was agreeable for the travelers in that train to reflect that the company, which was responsible for all this discomfort, was at that very moment beseeching the Legislature for additional privilege. But if the Central Road treats its passengers like dogs, when it can only charge two cents a mile, it will treat them like pigs when it can charge them three. There is a profound public sentiment hostile to the increased grant. But it is undoubtedly true that if the company had been careful to be courteous and considerate, and had, by very obvious and simple means secured the good feeling instead of the ill feeling of the public, the new grant would have been regarded very differently.

It remains to be seen whether any fresh securities of greater public safety are to be made the conditions of the new privileges of this dangerous corporation.—*Harper's Weekly.*

WILMINGTON ITEMS.—A letter from Wilmington to the Boston *Journal* says:

"Large quantities of cotton had been hid so that it might not be burned by the rebels. One man has lighters to work bringing it out of the swamps and replacing it in his storehouses. The rebels burned forty thousand barrels of rosin belonging to another man, which would have been worth three hundred thousand dollars in gold to him had it been left untouched. A Mr. Neff, who had been expatriated by the rebels from Wilmington, came up with the fleet and threatens hot and fiery vengeance on his enemies if they are to be found.

"Wilmington is rather a pretty place, and there are several very fine private residences and several fair churches. As usual, the commanding general has taken the best house in town for his headquarters. It is a very good thing for the house for it will be kept in good order and well guarded. The slave owners here seem to have been very apprehensive on account of their blacks, and had many fears that the coming of our negro soldiers would create great disorder in the town. They express themselves greatly surprised at the conduct of our troops, and especially of the colored soldiers. The negroes are round in large numbers, many are enlisting in our service—some of them in the navy. The citizens say that our troops behave very much better than their own did."

IT IS thought, from the immense amount of ice at the lower end of Lake Erie, that navigation will not open much, if any before the 1st of May.

THE ELKHORN CONVENTION.—A printed slip received at this office, giving the proceedings of the Convention called to nominate a candidate for Circuit Judge in opposition to Hon. David Noggle, shows that the effort to get up another ticket was a total failure.

After *mature* deliberation, the Convention nominated Col. William P. Lyon, of this city (now with his regiment in Tennessee) as their candidate. This use of his name is wholly unexpected by his friends in this city, and in the absence of any knowledge upon the subject, and is believed to be unauthorized by Col. Lyon; we cannot speak for him, but we can for ourselves, and we believe we do as he would do if he were here, when we recommend the voters of this county to cast their votes for Hon. David Noggle, for Circuit Judge.

The Convention did not represent the people of the circuit, or even a fair minority of them in point of number in attendance. Neither Racine or Kenosha county sent a delegate.—*Racine Advocate.*

WILTON, IOWA, March 15th, 1865.

TO MY FRIENDS AND PATRONS OF THE KENOSHA WATER-CURE.—In consequence of my own ill health, it will be impossible to resume my position at the "Cure," the coming season; but, while I regret my own misfortune, I congratulate you that my place will be so well occupied, and the business of the "Cure" proceed without interruption, after the first of next April.

Mr. Pennoyer has engaged Prof. H. P. Gatchell, M. D., and wife—Mrs. A. M. Gatchell, M. D.,—of Ohio, to take charge of the medical department.

Prof. Gatchell and wife, not only possess a complete knowledge of the medical sciences, generally, but are thorough Homœopathists and Hydropathists; and have had a long experience in the treatment of chronic diseases, and the management of Hydropathic establishments.

Prof. Gatchell was among my earliest teachers of science and medicine, and my first associate in practice; and from him I learned my first practical ideas of Hydropathy.

I assure you from my own actual knowledge of his practice, that in the treatment of chronic diseases, he is unusually thorough, and pre-eminently successful.

I therefore most sincerely recommend those suffering from chronic disease, and who contemplate visiting a Hydropathic establishment, to go to Kenosha, by all means, and secure for themselves scientific and skillful treatment.

Yours truly,

C. F. REED, M. D.

Miscellaneous.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date of August 15th, 1864, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

Gold-Bearing Bonds

These bonds are now worth a premium of nine per cent., including gold interest from Nov., which makes the actual profit on the 7 30 loan, at current rates, including interest, about ten per cent. per annum, besides its *exemption from State and municipal taxation, which adds from one, to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a	$50	note.
Two cents " " "	$100	"
Ten " " "	$500	"
20 " " "	$1000	"
$1 " " "	$5000	"

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $200,000,000 remain unsold, which will probably be disposed of within the next 60 or 90 days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
Subscription Agent, *Philadelphia.*

Subscriptions will be received by the
FIRST NATIONAL BANK of Janesville.
ROCK COUNTY NATIONAL BANK of Janesville.

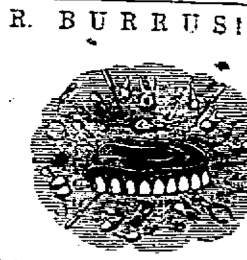
DR. BURRUS!

DENTAL FACTORY.



Is now believed to be doing the most extensive business in the manufacture and adaptation of Artificial Teeth, of any establishment in the West. His teeth are not excelled in beauty and usefulness. Prices from $5 to $60 per set. All diseases of the teeth and diseases connected therewith, treated on the most scientific principles and with the most certain success.

OFFICE IN MYERS' BLOCK,
Main St., Janesville, next door to Dr. Hale's Lung Institute.

Caries of the Human Teeth.

Caries of the teeth passess through three distinct stages.

FIRST STAGE.

It usually commences in the dentine, beneath the enamel, and is first indicated by a dark, leaden colored spot, when at length the enamel breaks through, which gives the first warning of decay. Still the tooth does not ache until the decay reaches the nerve or pulp, first indicated by soreness, afterwards by active inflamation.

SECOND STAGE.

Now the decay has exposed the pulp or nerve, the patient is afflicted with the toothache, jumping toothache, &c. No language can give any adequate idea of the pain experienced. Robert Burns says it is the "hell of all diseases." The pain is throbbing, shooting, darting through all the branches of the fifth pair of nerves, giving rise to neuralgia, headache, chills and fever, constipation, and a furred tongue. Acidity of the stomach, dyspepsia, and all its disagreeable consequences, are apt to attend decay of the teeth. The patient expresses the wish perhaps a thousand times that he had not one tooth in his head, and oh, the dread and horrors of having them extracted.

THIRD STAGE.

Now the inflammation has reached the end of the fang or roots, the periosteum or membrane around the fang is inflamed, the tooth is ulcerating at the root, indicated by a dull, throbbing pain, soreness of the teeth to the touch, swelling, &c. The face often swells so badly that it is impossible for the patient to open the mouth. At the end of from three to ten days an alveolar abscess forms and opens over the fang of the affected tooth which gives some relief, and sometimes gets almost well; but the slightest irritation, getting cold or getting the feet wet, is liable to give rise to repeated attacks. At last the tooth falls to pieces, leaving only the fangs in the jaw, which are a filthy nuisance as long as they remain. The above cuts show two teeth, a large molar and an eye tooth, extracted during the third stage of the disease.

SIX YEAR MOLARS.

During the sixth year of the child's age, the first large molars appear. These and all the teeth that appear afterwards are permanent, and not shed as people often suppose. The first molars are very firmly set and the most useful of all the teeth and ought to be saved by all means, but are too often lost by neglect.

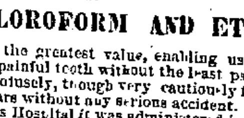
THE REMEDY

Is simple and certain. As soon as you discover a small cavity the size of a pinhead, call at the DENTAL FACTORY and have it well filled, which will save you an untold amount of suffering, besides you will keep your teeth for future usefulness. *During the Second Stage* there is two remedies, the one is to destroy the nerve, the other is extraction. All others are but temporary.
Third Stage.—Now the only remedy is to extract the offending member which will be painful on account of the soreness, and it often happens the swelling is so great that it is impossible for the patient to open the mouth. It is now that

CHLOROFORM AND ETHER

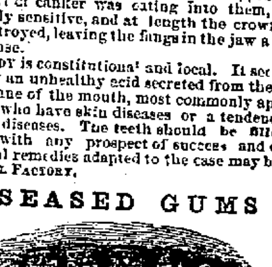
Proves of the greatest value, enabling us to extract the most painful tooth without the least pain. I have used it profusely, though very cautiously for a period of ten years without any serious accident. In St. Bartholomews Hospital it was administered in 9,000 cases without an accident. In Guy's Hospital, London, it was administered in upwards of 12,000 cases before a death occurred. In the great Crimean war it was administered upwards of 25,000 times without accident, for which we have the testimony of Mons Florens. Dr. Macleod thinks it saved many lives in the British Army. Where now is the Nitrous Oxid Gas? Why after three days run in this city, it went down, down, to the everlasting dark regions of oblivion.

EXTERNAL CARIES.



The above cut shows one of the most destructive diseases that ever attacks the human teeth. This disease is indicated first by a dark brownish color next to the gums, the enamel softens, the teeth appear as though a sort of canker was eating into them, they are extremely sensitive, and at length the crowns are entirely destroyed, leaving the fangs in the jaw a filthy mass of disease.
THE REMEDY is constitutional and local. It seems to be caused by an unhealthy acid secreted from the mucous membrane of the mouth, most commonly appearing in those who have skin diseases or a tendency to that class of diseases. The teeth should be filled if they can be with any prospect of success and other constitutional remedies adapted to the case may be had at the DENTAL FACTORY.

DISEASED GUMS



AND TARTAR ON THE TEETH.

The above cut shows the appearance of the teeth when encrusted with tartar and diseased gums not yet beyond a remedy. In this country the water is hard, and strongly impregnated with lime, as all know who ever saw the inside of the kettle. A substance nearly like that in the tea-kettle,—when it is coated with lime—finds its way out through the secretions of the mouth, an deposit on the teeth mostly during the night. It is soft at first, and may be brushed off very easy in the morning with a little soap and soft water. If left on the teeth it soon hardens almost like brick, gradually increasing in thickness, irritating the gums, causing them to swell and bleed at the slightest touch. A low grade of inflamation is set up, the sockets of the teeth are gradually absorbed or eat away, as if by a sort of canker, and the teeth finally become loose, rise up and fall out. The mouth presents a filthy appearance, which is not delusive; effete matter exudes from the edges of the gums The breath is loaded with effluvia, and so nauseous that it often sickens the inmates of a large apartment, and is repulsive in the extreme.
The remedy is first to remove all tartar with the scalers—polish the teeth and brush them with the imperial tooth powder once or twice a day; this rarely fails to effect a permanent cure, and all the filth in the mouth will disappear in less than three days. Pure soft water for common drink if it can be had, and as many lemons and as much fruit as you can get.

GOTTSCHALK ON KNABE.

[Translated from the French.]

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystaline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal *if not superior* to the best manufactured in Europe or this country by the most celebrated makers.
Signed, L. M. GOTTSCHALK

Medical.

DR. KNAPP & SON

Physicians & Surgeons,

FORMERLY OF NEW YORK,

are treating successfully

CHRONIC DISEASES,

On a New System!

Which embraces the best and most approved methods in this and other countries for the cure of all Chronic Diseases.

They treat successfully

All Nervous & Neuralgic Affections,

All forms of Scrofula, Dyspepsia, Diseases of the Liver, Constipation, all Skin Diseases, Pulmonary Consumption in its early stages, Paralysis, Epilepsy, Salt Rheum Headaches, all Heart Diseases, Diseases of Children and

Seminal Weakness, & Sexual Diseases,

Which are carrying thousands to their graves annually.

EYE AND EAR!

They treat successfully, on a new method, all diseases of the Eye and Ear. They have had more extensive practice, and better success in the treatment of all

DISEASES OF WOMEN,

Than any other Physicians in America. They have cured women who have been confined to their bed for years. They never fail to cure

RHEUMATISM!

In all stages; no matter of how long standing. They cure

ASTHMA,

so it never returns. They have a Sure Cure for the distressing disease,

Hemmorrhoids, or Piles!

They cure all Diseases of the

Throat and Lungs!

DIPTHERIA CURED!

They have discovered a

SURE AND SPEEDY CURE

For this Terrible Disease!

It is also a sure cure for Scarlatina, or Scarlet Fever, which is of the same class of disease. It never fails to cure Diptheria or Scarlatina in from 12 to 48 hours. It gives relief immediately.

PRICE PER BOTTLE, - - $5.00

CANCERS!

They have had an extensive practice and wonderful success in the treatment of Cancers, which they CURE without eating them out or using the Knife. Let those who have

TUMORS OR SWELLINGS,

or a red spot lose no time in having it attended to, as a timely treatment may save them from the horrors, suffering and death of an open cancer.

CATARRH CURED!

They are treating Catarrh on a new system which is a

SURE CURE FOR THIS DISEASE!

Experience has proved that Catarrh *cannot* be cured by *local* treatment *alone*; hence, the many advertised cures for Catarrh, all of which are local remedies, give relief *only* while the patient is using them, but *never cure*.
Understanding the disease and we know it *cannot* be cured by LOCAL treatment *alone*, therefore, we also prescribe a *constitutional* remedy to be taken, and by the combined *local* and *constitutional* treatment, we are enabled to remove the *causes* of *Catarrh*, and thereby effect

A PERMANENT CURE.

THEIR CONSULTATIONS for years have averaged from five to seven thousand a year, which gives them an experience unsurpassed by any, and equalled only by a few.
Remember they do not promise to cure all stages of Disease While all diseases are curable, if taken in season, all stages are not. Your case may be curable this week, not next—to-day, not to-morrow; hence the danger of delay.

No case will be received, when there are any doubts of Cure or Relief.

Our Terms are CASH; hence the money must be sent with all orders for medicines. It costs from five to fifteen dollars per month, to doctor with us, which includes medicines
The poor will be favored.

CONSULTATION FREE.

Patients must write their name, State, post office address, plainly. All letters requiring an answer, must contain a letter stamp, and be addressed to DR. KNAPP & SON, Drawer 6483 Chicago, Ill.
Any of the above diseases can be treated successfully by the patients' describing their case in a letter, when they cannot see us.
Dr. Knapp, who has visited Janesville regularly for seven years, can be consulted at the Hyatt House, Wednesday, January 11th and till four o'clock p. m. Thursday, January 12th; Wednesday, March 15th and till four o'clock p. m. Thursday, March 16th; Wednesday, May 17th and till four o'clock p. m. NOTICE FOR MARCH AND APRIL, 1865.

ESPECIALLY TO THE SICK!

DR. V. CLARENCE PRICE.

Analytical Physician,

LATE OF BUFFALO, N. Y.

To the cure of all Chronic Diseases, In all the various forms and stages, DR. PRICE has for years devoted his whole attention. System of treatment founded on truth, and the only one that has proved successful. No speculation! No trifling! No deception! No making sick!! Assists nature. Permanent cures, effected without experiment. Practice differs from all others. No physician living has had more experience in this class of diseases.
Lungs, Throat, Liver, Heart, Kidneys, Rheumatism, Catarrh, Dyspepsia, Fits, Scrofula, Dropsy, Female Complaints, and all chronic ailments are cured without exhausting the energies of the system, or the use of destructive agents.
We invite the sick to call. Consultation free. A candid opinion always given. We have regularly visited Janesville for years, and shall continue regularly to do so.
Dr. Price receives patients on his next visit, and on the same days of the week every eight weeks regularly:
At Janesville, Hyatt House, on Saturday and Sunday, the 1st and 2d of April.
At Woodstock, Exchange Hotel, on the 3d of April.

FURNITURE! FURNITURE

N. SWAGER,

dealer and manufacturer of

Furniture and Cabinet Ware,

will announce to the citizens of Janesville, Rock and adjoining counties, that he has on hand the largest and best selected stock of furniture that has ever been in Janesville, and notwithstanding the great rise in prices of labor, material, &c., he is not only able but determined to sell his immense stock of furniture for the next 60 days

Without any Advance in Price

over the old prices, though furniture has everywhere else advanced at least from 25 to 75 cents over the old rates, and as it may be believed that he, too, asks more for furniture than he did before, he will disprove this to every one who will call and examine his stock, as he is sure to give entire satisfaction to the most fastidious, both in regard to price, quality and beauty of style, which can not be surpassed here or elsewhere.
Among my numerous articles I can only mention Sofas, Tete-a-Tetes, Sofa, Mahogany, Flag, Cane and Wooden Seat Chairs, Lounges, Marble Top, Center, Card, Extension, Dining, Breakfast and Kitchen Tables Mahogany, Cherry and Black Walnut Bureaus of all kinds, Bedsteads of every description. Coffins of all sizes and trimmed in every variety of style constantly on hand.

HAGAN'S MAGNOLIA BALM,

This is the most delightful and extraordinary article ever discovered. It changes the sun burnt face and hands to a pearly satin texture of ravishing beauty, imparting the marble purity of youth, and the *distingue* appearance so inviting in the belle of fashion. It removes tan, freckles, pimples and roughness from the skin, leaving the complexion fresh, transparent and smooth. It contains no material injurious to the skin. Patronized by Actresses and Opera Singers. It is what every lady should have. Sold everywhere.

MEXICAN MUSTANG LINIMENT.

The parties in St. Louis and Cincinnati, who have been Counterfeiting the Mustang Liniment under pretense of proprietorship, have been thoroughly estoped by the Courts. To guard against further imposition, I have procured from the United States Treasury a private steel plate revenue stamp, which is placed over the top of each bottle. Each stamp bears the *fac simile* of my Signature, and without which the article is a Counterfeit, dangerous and worthless Imitation. Examine every bottle. This Liniment has been in use and growing in favor for many years. There hardly exists a hamlet on the habitable Globe that does not contain evidence of its wonderful effects. It is the best emolient in the world. With its present improved ingredients, its effects upon man and beast are perfectly remarkable. Sores are healed, pains relieved, lives saved, valuable animals made useful, and untold ills unsnagged. For cuts, bruises, sprains, rheumatism, swellings, bites, cuts, caked breasts, strained horses, &c., it is a Sovereign Remedy that should never be dispensed with. It should be in every family. Sold by all Druggists.

LYON'S KATHAIRON,

Kathairon is from the Greek word "Kathiro," or "Kathairo," signifying to cleanse, rejuvenate and restore. This article is what its name signifies. For preserving, restoring and beautifying the human hair it is the most remarkable preparation in the world. It is again owned and put up by the original proprietor, and is now made with the same care, skill and attention which gave it a sale of over one million bottles per annum.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents the hair from falling off and turning gray.
It restores hair upon bald heads.

Any lady or gentleman who values a beautiful head of hair should use Lyon's Kathairon. It is known and used throughout the civilized world. Sold by all respectable dealers.

WITH

IMPROVED ROTARY FEEDER.

Manufactured at Springfield, O., by

THOMAS & MAST.

This Drill has a larger sale, and has proven itself to be the best in the United States. This drill sows Wheat, Rye, Oats, Barley, Grass Seed, &c., in any required quantity, without change of gearing, as a few turns of one screw makes all the changes. The Grass Seed is sown broadcast behind the hoes. The drill is a perfect success everywhere, and we have the testimony of a large number of persons that it works well where all others entirely fail. The Buckeye Drill is no experiment, but has been in successful use for twelve years past, and improvements have been made upon it constantly during that time.

DOTY'S CLOTHES-WASHERS

Are SIMPLE, DURABLE & CHEAP,

MAKE WASHING EASY,

And SAVE CLOTHES.

These Washers were exhibited at the great New England Fair of 1864 won the admiration of thousands, and were awarded a splendid Diploma; also at the Wisconsin and Pennsylvania State Fairs of 1864, they were awarded the first premium.

To Wool Growers!

☞Wool fleeces may be washed in these Machines at the rate of *a fleece in two minutes*, without tearing them apart, and the wool brings the price of *tub-washed wool*, which is *five to eight cents per pound more* than that washed on the sheep. This is very important to every wool grower.

They are recommended as the Very Best in Solon Robinson's great new work, "Facts for Farmers," by ORANGE JUDD, proprietor of the *American Agriculturist* and by other prominent men.

☞It gives us great pleasure to be able to afford these great household blessings at the following comparatively trifling cost, which is a reduction of about 20 per cent. on former prices:

Small Size, at Janesville,	$ 0.50
Family " " "	10.50
Hotel " " "	13 50

☞The above prices include Faucet. Machines with plug instead of faucet, 62 cents less.

Full Directions for Using are Attached to Each Machine.

Any person purchasing a Washer of us may return the same and have the purchase money refunded, if, after four weeks fair trial according to directions, it fails to give satisfaction.

Many of our Washers are now in use in Janesville, and we subjoin the following testimonials:

From Rev. G. W. Lawrence:

MR. DOTY—I confess I have been quite skeptical in regard to the utility of washing machines, until we gave yours a trial. Having tested it thoroughly, we are fully prepared to say, unsolicited, that we regard it as a capital machine. The principle upon which it works is the true one—rubbing the dirt effectually with as little injury to the cloths as the slightest manner. My wife endorses it heartily as a labor-saving machine, and considers it truly a "Paragon." With "Doty's Paragon Clothes Washer," and the "Universal Clothes Wringer," washing day is no longer dreaded as in days of yore. G. W. LAWRENCE.

JANESVILLE, Nov. 11th, 1864.

Messrs. Doty Bros.:

GENTLEMEN—I have had in use one of your Washing Machines since May last. We have tried other inventions but they have invariably proved worthless, after a few weeks use. Yours is the only invention that has stood a satisfactory test in my family. It works admirably, and is a great labor saving machine; while in point of economy it is no equal. It has more than saved its cost already in the diminished wear of clothes, as compared with any other process of washing with which I am familiar. No family can well afford to be without one. Yours truly.

Sewing Machines.

WILCOX & GIBBS'

SEWING MACHINE!

Will Stitch, Hem, Fell, Tuck, Cord, Bind, Braid, Quilt and Embroider beautifully. It will, with the finest thread and needle, run from perfect work on the finest Nainsook, over the heaviest beaver cloth and cowhide, with no change of needle, thread or tension.

Wilcox & Gibbs Sewing Machine

will use same *cotton, linen, silk* and *twine*. It runs easier, faster and stiller than any other machine. It forms a flat, even and elastic seam, differing from every other stitch, each loop being *twisted* by means of the

"ROTATING HOOK,"

and drawing the twist *into the goods*, thus securely fastening every stitch, so that the seam will bear to be cut or torn between stitches, and in that case even, the work is warranted not to rip in wear, and under all circumstances to surpass *the goodness* of work sewn by other machines. Premiums, gold, silver, bronze, &c., have been awarded to Committees at Fairs where was the *greatest* competitive testing, and to this stitch premiums have been awarded for its SUPERIORITY, DURABILITY, ELASTICITY and BEAUTY.

A Patented Device *prevents the possibility of the machine being run in the wrong direction*, or the balance wheel ever working or loosening the dress. By another ingenious Patent Improvement,

The Needle Cannot be Set Wrong,

and no one but the most careless of other machines. In this it is saying that a child may set it in the dark with equal success every time.

NO BREAKING OF NEEDLES.

The Eye of the needle is less than ¾ of an inch long, and is straight. It is less than half the length of other machine needles, many of which are curved, therefore more easily bent or broken—a great source of annoyance, expense and trouble. The Hemmer and Feller can never be set wrong. Any one may adjust them *in the dark*. The hem may be of any width. No other hemmer ever seller is like this. It turns the hem on the right or upper side, as you want it.

IT WILL NOT DROP STITCHES;

As the needle is always set right, the blade short and straight does not vibrate, like longer ones.

Wilcox & Gibbs Sewing Machine

is run at a speed of 3000 stitches per minute—other machines only at 400 to 1200, with safety. They are noiseless and rapid.

MATHEMATICAL PRECISION,

to one each part is interchangeable, and can be readily placed in case of accident.

THEY WILL NOT GET OUT OF ORDER

We have known it intimately for several years. Many thousands are already in use here, and so far as we know, not one in family use has ever cost a dime to repair, or ever been out of order at all. They will last a generation, if properly cared for. None who have used them can be persuaded to use any other.

Wilcox & Gibbs Sewing Machine

Works with an infant's noise, and never stops "unaccountably." No one operator in ten on the Wilcox & Gibbs will break a needle or drop a stitch in a year. The Wilcox & Gibbs in the hands of any one, knows no "skips," "drops," "snaps" or "nolens." The ornamental, evenness, durability and beauty of its stitch

WERE NEVER EQUALED.

Its rapidity, absolute stillness, ease of motion, narrowness and neatness of its Hem and Fell were never approached by any other machine. We can call in any boy or girl from the street, and with three minutes instruction they will set the needle, attach the Hemmer, or Feller, and do the work with entire success. A blind girl, with the exception of threading the needle, can do the same. Many ladies owning other first-class machines, come to our office to do their nice hemming and felling on the Wilcox & Gibbs Machine.

The press universally pronounce this the best family sewing machine in the world.

We are General Agents for

BARNUM'S SELF-SEWER,

We take other machines in exchange. We sell Oil, Cotton, Silk, Twist and Needles for every kind of sewing machines.

We attend to the repairing of all kinds of machines. Second Machines, with Hemmer, Feller, gauge, oil can, extra needles, full instructions, &c., from $56 to $175.

THE GREAT AMERICAN REMEDIES, KNOWN AS

Helmbold's Genuine Preparation

"Highly concentrated" compound

FLUID EXTRACT BUCHU,

a positive and specific remedy for diseases of

The Bladder, Kidneys, Gravel and Dropsical Swellings.

H

This medicine increases the power of digestion and excites the absorbents into healthy action, by which the water or calculous dispositions, and all unnatural enlargements, are reduced, as well as pain and inflammation.

Take no Balsam, Mercury or unpleasant medicin for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU

cures such in all their stages, at little expense; little or no change of diet; no inconvenience, *and no exposure.*

It causes frequent desire and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, and allaying inflammation, so frequent in this class of diseases.

Thousands upon thousands who have been the

Victims of Quacks,

and who have paid heavy fees to be cured in a short time, have found they were deceived, and that the "pet cure" has, by the use of "powerful astringents," been driven in, in the system, to break out in an aggravated form.

E

Use Helmbold' Extract Buchu

for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating, and no matter how long standing. Diseases of these organs require the aid of a Diuretic. Helmbold's Extract Buchu is

The Great Diuretic,

and it is certain to have the desired effect in all diseases for which it is recommended.

L

BLOOD! BLOOD! BLOOD!

Helmbold's highly concentrated compound

Fluid Extract Sarsaparilla Syphilis

This is an affection of the blood, and attacks the sexual organs, linings of the nose, eyes, throat, whiskers, and other mucuous surfaces, causing its appearance in the form of ulcers. Helmbold's Extract Sarsaparilla purifies the blood, and removes all scaly eruptions of the skin, giving to the complexion a clear and healthy color. It being prepared expressly for this class of complaints, its blood purifying properties are presumed to a greater extent than any other preparation or Sarsaparilla.

M

Helmbold's Rose Wash,

an excellent lotion for diseases of a syphilitic nature, and as an injection in diseases of the urinary organs, arising from habits of dissipation, used in connection with the Extracts Buchu and Sarsaparilla, in such diseases as recommended. Evidence of the most responsible and reliable character will accompany the medicines.

Certificates of cures, from three to twenty years standing, with names known to science and fame.

DIABETES,

STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING,

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER,

STRANGUARY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small or the back and through the hips? A tea-spoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

has proved itself equal to the task that has devolved upon it.

DIURETICS

irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and consumed diseases.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can not enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flushes of Heat, Languor, Lassitude, and Dimness of Vision.

SUPPRESSED MENSTRUATION,

Which in the unmarried female is a constant recurring disease, and through neglect thousands of more grave and dangerous maladies are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually loses her appetite, the bowels are constipated, night sweats come on, and *consumption* finally ends her career.

Good News for the Unfortunate!

THE LONG SOUGHT FOR

DISCOVERED AT LAST.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION!

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic cures all diseases of the urinary organs

☞It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times per day.

☞It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced diseases.

CHEROKEE INJECTION is intended as an ally or assistant to the **Cherokee Remedy,** and should be used in conjunction with that medicine in all cases of Gleet, Gonorrhœa, Fluor Albus. Its effects are healing, soothing and demulcent, removing all scalding, heat and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

☞Price, Cherokee Remedy, $2 per bottle, or three bottles for $5.
